

# TECHNICAL DATA SHEET

## KLC-300 - Rust Remover Gel

### Product description :

**KLC-300** is an excellent rust cleaning agent gel. It is also extremely efficient in removing various deposits of tarnish, oxidation, stains, fingerprints and scale from iron, steel, copper, brass and aluminium.

### Properties:

Apperance	:	Clear gel
Density	:	1.030 g/cm <sup>3</sup>
Odour	:	characteristic
Solubility in water	:	very good
Shelf life	:	24 months

### Advantage:

- Works well at low temperatures
- Excellent cleaning properties
- Easy to apply
- Friendly to environment and worker

### Application:

- KLC-300 can be applied direct to the rust area by squeezing the bottle to let the gel coating the rusted area. After a short time the cleaner is penetrated and the deposits can be removed.
- The reaction time depend on the degree of rust.

### Storage conditions:

Store in a tightly closed container in a room protected against atmospheric condition, at a temperature up to 35 °C.

### Further Information:

Product technical information and data is based on the best information available and does not constitute or imply a warranty or patent infringement of any kind. The user is responsible for testing product suitability prior to use in production.
