

TECHNICAL DATA SHEET

KLU-520

KLU-520 is designed as a universal Release Agent for Rubber, Polyurethane, non-woven material and Thermosetting resins.

KLU-520 can be used as the concentration or diluted with water up to 1 : 5

Advantage:

- Easy application
- Excellent release
- Reduces build-up
- Universal product
- Environmental friendly

Properties:

Appearance : white
Shelf life : 12 month

Application:

1. Apply **KLU-520** by spray gun
2. Gently spray over the surface covering the whole area
Repeat until is completely coated.
3. Start with production.

Reapplication:

When release becomes hesitant, reapply one coat of the diluted **KLU-520** in the same manner as described above.

Further Information:

Product technical information and data is based on the best information available and does not constitute or imply a warranty or patent infringement of any kind. The user is responsible for testing product suitability prior to use in production.
