

TECHNICAL DATA SHEET

SWW-203

SWW-203	Water-based mold release agent for high pressure die casting of aluminium
SWW-203	Easy to release, increase production efficiency
SWW-203	No build up on molds
SWW-203	Can be used with hard water
SWW-203	Keep mold temperature stable

Properties:

Color	:	Milky white Liquid
Density	:	Approx. 1.0 g/cm ³
Shelf life	:	12 months

Advantages:

- Easy to apply by spraying
- Good spreading creates perfect film
- Prevent build-up on molds
- Die wetting at good high temperature
- Good Adhesion to molds
- Good surface quality
- Good release property
- Short cycle time, high productivity
- Low number of rejected parts

Application method:

Supply in concentrate form. To be diluted with water. Dilution 1:80 to 1:100

Further Information:

Product technical information and data is based on the best information available and does not constitute or imply a warranty or patent infringement of any kind. The user is responsible for testing product suitability prior to use in production.
